

## Affordable Pet Dental Care Packages for the Florida Keys

### Prepaid Package Benefits:

We've thoughtfully crafted our pre-paid dental packages to be an affordable dental care solution designed with the residents of the Florida Keys in mind. By choosing our packages, you ensure top-quality dental care for your pets while enjoying substantial cost savings compared to individual line-item billing.

### Understanding the Significance of Dental Care:

- Consistent dental check-ups are integral to your pet's overall health.
- Resolving dental concerns is essential for your pet's comprehensive well-being.
  - **The Connection to Wider Health Problems:**
    - Unaddressed periodontal disease can lead to organ issues like *kidney disease, heart disease, liver disease, and dermatitis*.
    - Can be the cause of bad breath.
    - Dental disease can spread bacteria by licking.
    - It can result in substantial discomfort and complications for your pet.

### Understanding Periodontal Grading & Treatment:

- Periodontal disease is assessed on a scale ranging from 0 (healthy) to 4 (severe).
- Treatment encompasses an extensive dental cleaning.
- X-rays are necessary to gauge the extent of the condition.

### Our Prepaid Dental Package Encompasses:

- A dental consultation with Dr. Lisa Mikol-Doering.
- Senior bloodwork for a comprehensive health evaluation.
- A thorough dental procedure, including anesthesia administered by our highly skilled CVT Libby.
- Dental X-rays and a meticulous examination.
- Ultrasonic scaling and precise polishing.
- Extraction of affected teeth if necessary.
- A post-dental follow-up appointment for peace of mind.

### Steps to a Healthier Smile:

1. Initiate a dental consultation with Dr. Lisa Mikol-Doering.
2. Schedule a dental cleaning day after your consultation.
3. On the dental day, please withhold food after midnight, though water is permissible until the morning of the procedure. Your pet will undergo a comprehensive dental procedure under general anesthesia. Libby, our certified veterinary technician (CVT), will oversee your pet's care and address any questions or concerns. Kindly remain accessible by phone throughout the day in case of any adjustments to your pet's care.
4. Following the dental procedure, plan a re-check exam with Dr. Lisa for a thorough post-operative assessment.

\* Payment is due at the time of the initial consultation. Post-operative medication and any additional costs for periodontal disease assessed as level 4, which may require advanced dental procedures, will be discussed during the initial consultation, and are not included in the package.
